

# DEDICATED TO GOLF COURSES

COMMITTED TO YOUR SUCCESS

## "Golf is in our blood."

Passion for golf trickles down from the top here at Greenhorizons. When the company owners, Ron and Steve Schiedel, say that they "built" one of Southern Ontario's most prestigious golf courses, they ask that you take them literally... They are renowned for being hands-on and did not hesitate to get down to work when it came time to put together a golf course of their own; Willow Valley Golf Course.

Having "been-there-done-that" with regards to everything on the course, and having over 200 years of combined agricultural experience allows us to service the golf course industry in unparalleled ways.

## Greenhorizons is here to help

Whether your project is a planned renovation, or repairs made necessary by Mother nature, Greenhorizons has the ability to do the job for you. Our experience crew has the tools to perform any task from bunker renovations and greens rebuilds to ice and flood damage.

## Golf Course Consultation

The time spent planning a sod installation from start to finish will pay dividends in the end with saved labor hours, materials and a much better final product! Greenhorizons' team has the experience and the know-how to help you plan a successful turfgrass project. Contact us today for invaluable consultation on your golf course renovations!

## Premium Sod Varieties

Growing over 5000 acres of turfgrass since 1975 has provided us with the knowledge to produce numerous specialty cultivars for all golf course applications. From greens, to fairways, to rough; Greenhorizons grows it all

### GHG Aggressor Pro Creeping Bentgrass

Exceptional blend of MacKenzie and Tye. High performance under pressure. Creates true greens surfaces.

### GHG 3-Way Creeping Bentgrass

A 3 cultivar blend, fine textured and very dense. Available in greens and fairway/tee height.

### GHG Penn A-4 Creeping Bentgrass

High maintenance turfgrass, world renowned as a superior performer for true, fast putting greens.

### GHG Premium Bluegrass

A combination of research selected Kentucky Bluegrass cultivars. Suited to a variety of applications.

### GHG Ultimate Sports Turf

These cultivars are selected by the National Turfgrass Evaluation Program alongside Greenhorizons for the best Kentucky Bluegrass.

### GHG Eco Solutions: Pure Fine Fescue

Low-maintenance blend of Creeping Red, Hard and Chewings Fescues, for a heat, drought, and shade tolerant turfgrass.

### GHG Eco Solutions: Eco-Turf Mixture

A low-maintenance blend of fine fescues, Kentucky bluegrass, and micro-clover.

# Specialty Golf Services

To leave your course better than we found it, our experienced crew has an arsenal of golf course specific equipment. We have carefully selected this equipment to minimize traffic damage and maximize efficiency. Our hand-picked install team has been extensively trained to be respectful of your clients and they are instructed to follow specific travel routes. We aim to be industry leaders and take great pride in our work; this is why we can comfortably offer guaranteed results.
