

SOD INSTALLATION

FOR PROFESSIONALS

What We Can Do For You

Greenhorizons Sod Farms is dedicated to top-notch quality, and second-to-none customer service. If you want your sod installation done right, Greenhorizons Sod Farms is the Professional's Choice.

Pre-Install Site Review

Prior to installation, a Sod Expert will perform a site review. They will ensure that the site is properly prepared and confirm access points.

Logistics Management

We take the hassle out of acquiring sod for your project! No phone calls for ETA's, no wasted wages waiting. We supply AND we install so you don't have to.

Inventory Management

Tired of coordinating deliveries with your employees so that your sod is laid as soon as possible? We live and breathe turf and are masters of sod inventory management. We will lay our farm fresh sod quickly, and efficiently.

Premium Sod Installation

Greenhorizons Sod Farms has a reputation of having the finest Kentucky Bluegrass Sod in Southern Ontario. A little industry secret though, is that we are also one of the finest installers of Kentucky Bluegrass Sod in Southern Ontario. See for yourself! Our installation services can be done with either GHG Premium Bluegrass or any of our specialty grasses such as our NEW GHG Spectrum Sod, GHG Camel Grass, GHG Bluegrass Fescue Blend, GHG Eco Turf Mixture, GHG Low-Mow Bluegrass and more.

Post-Install Site Cleanup

We may have been born in a barn, but we clean-up our mess when we make it! Sod trimmings and left over soil will be picked-up and disposed of in an environmentally friendly manner.

Initial Sod Watering

The first watering of the sod once it's laid is essential to success. With our extensive arsenal of water distribution equipment, no matter the site we can get water to each and every inch of grass that needs it.

Final Inspection

There's no better sight than a freshly laid lawn. Once our install crew is finished, we will send a final report with measurements to assure you that the job is completed up to Greenhorizons' standards.

Waiting for your call!

Give us a call and we can discuss the requirements of your job. We're in the business of making people happy and we pride ourselves in reacting quickly to our customers needs.
